The Case of Lieut. Stratton.

The field officers and captains of the 19th Ohio regiment have signed a statement to the Cleveland Herold, vindicating Lieutenant Stratton and his men, who were dismissed from the army in Western Virginia, and sent home in disgrace without trial, on a charge of plundering the inhabitants. The Wood county, Ohio, I shall offer for sale at the deor statement is that Lieut Stratton, with a Sergeant and six men, went to the house of a notorious accessionist to arrest him. On arriving, they found his house descrited and pillaged. Soon the owner appeared and they arrested him, when he showed papers indicating that he had taken the oath of al-Then he charged them with plundering his house. This they denied, and requested him to search them and their wagon, which he did but found nothing,

The next day the secessionist came down and made a complaint to Gen. Resecrantz that he had been robbed of a gold watch and \$175 in cash. Licut, Stratton and com-wood county, Ohio, en Saturday, August 24th, 1851. Not a man in the 19th regiment believes

Lieut. Stratton guilty. The only evidence, aside from the traitor's oath, that anything was taken, is this: during the investigation a watch was found outside the guard line, which the rebel identified as his own. Many of the loyal citizens of Buchanon do not hesitate to pronounce it a conspiracy, got up to annoy those who arrested him. Some 25 of his neighbors stand ready to swear that they would not believe him under oath, and stated the same in a petition to Gen. Rosecrans, asking that the sentence be suspend ed till a full investigation could be had.

We presume that all the parties have by this time come to the conclusion that great injustice was done these men by this heaty and arbitrary exercise of power. Lieutenant Stratton's whole offese seems to have ed at \$500. been in going to arrest the man. That may have been unwarranted, but certainly it could not be more unwarranted than the exercise of this severity upon these men with-

The Track Getting too Fresh. "Previous to the breaking out of hostili-

Upon receiving the requisition of President Lincoln for volunteer troops, the Governor called upon these companies to join the regiment, whereupon they very promptly and unanimously surrendered their arms and equipments back to the State, as did also the officers their commissions. Among them was one Capt, Jahns, who had figured largely in times of peace as Chairman of the Military Committee in the Legislature of the State, and in laboring to establish for himself a military reputation. Soon after resigning his commission he was met by Col. Teall, who very coolly inquired of him "if the track was getting too fresh?" The Captain not understanding what was meant, the Colonel told him his military career reminded him of a California hunter, who started out with his gun in the morning mon the track of a bear. and pursued it hard all day. When it be-came evident he had nearly overtaken his game, he turned aside into a miner's shanty very excited. The miner inquired what was the matter, as he looked agitated and alarmed. Romantic Love Scene.

Tis past the hour of midnight. The golden god of day, who yesterday drove his emblazoned chariot through the heavens, has ceased shining upon the earth, and a black pall reigns over the lower section of our feity. Nought is heard save the distant step of the melancholy bill-poster, as he pursues his homeward way. Suddenly a sound breaks the still of the night; it is the sweet voice of Frederick William, calling in plaintive tone upon his beloved Florence Amela: "Throw open the lattice, love, and look down upon the casement; for I, your own

MEDICINAL.

DR. J. B. SMITH Would respectfully inform the citizens of Wood county that he has permanently located himself in Bowling Green for the purpose of practicing Medi-cine and Surgery. In addition to a regular course of study, Mr. S. has made himself acquainted with the special mode of distinguishing diseases by an examination of the urine of the patient as practised by the late DR, DELANBAUGH, and for all Chronic by the late DR. DELANBAUGH, and for all Chronic Diseases will say unhesitatingly that by following Mr. D's practise in such cases, he has had better success than from any other methodof treatment.—Among the diseases which Dr. S. professes to treat successfully may be mentioned the following, viz. Dyspepsia, Liver Complaint, Consumption in its early stages, Diseases of the Spleen, Astiona, Spitting of the Blood, Palpitation of the heart, Rheutnatism, White Swelling, Dropay, Scrofulous Diseases, Jaundice, Female Complaints, in all their varied forms, Low Spirits or Melancholy, Fever Seres, Ulcers, &c. If patients with any of the above or kindred Chronic Diseases will send some of their urine taken in the morning in a clean vial, Dr. S. can make a satisfactory diagnosis of the case nearly as well as if the patient were present.

Are new and different from any one in the United States, and I challenge any one to preduce the same success that I have met with in treating Chronic Diseases. My theory is based upon the chemical operations of the body, whereby the solids be come unhealthy by analysing the secretions, blood, &c., of the body, and tading out what is deficient or in excess and supplying to the system what is wanting. I am enabled to cure often by a small amount of medicines for long years to no effect.

DR. ROBACK'S SCANDINAVIAN REMEDIES. When Dr. Roback, the renowned Swedish Phycian, introduced his Eloud Parifler and Pills into the United States, he set forth in plain terms their curative properties. This was years ago. The task of recommending them has since been taken out of his hands. Enlightened men, whose character for sound judgment and philosophy gives their opinions weight in the community, men who observe, reflect and make "assurance doubly sure," before they derile, are everywhere approving and arging the use of these wenderful preparations. All who confide in the wisdom and honesty of this class, or who

chosse to investigate for themselves, are now of one mind on this important subject.

The evidence in the possession of Dr. Roback which is at all times accessible to the public, establishes the following:

That the BLOOD PURIFIER and BLOOD PILLS have been proved by analysis to CONTAIN SO MINERAL; That they cure the almost universal complaint,

DYSPETSIA,
with uncering certainly, and in a very short time with unerring certainly, and in a very short time,—
That after all other medicines have proved uscless
they relieve Liver Complaint,
and restore the health and strength of the sufferer.
That Sick Females,
who have languished for years in helpless weakness and despondency, recuperate with almost miraculaus rapidity under their invigorating operation.
That all Sexual Disabilities are removed by their
cerdial and genity simulating properties. That they
recruit Silveters Constitutions,
however, they may have been trifled with and
abused. That their direct tendency is to lengthen
life, and render it enjoyable. That operating directly upon the poison of disease in the blood, they
Cause soon to Heal,
and discharge from the system every taint of Scrofnia, whether hereditary or otherwise. That they nia, whether hereditary or otherwise. That they necessity the Desilitated,

and that there is no disease of the stomach or boyels, the liver, the nervous system, the glands and muscels. ARISING FROM IMPURITIES OF OBSTRUCTIONS OF THE BLOOD OR SECRETIONS,
or which they do not give prompt relief, and, (if administered before the very citadel of life has been avaded,) effect a painless and perfect cure.

Bear in mind that the Scandinavian Blood Pills

are endorsed by the experience of thousands of liv-ing who, letter, affidavit, medical works and word of mouth proclaim them to be the very best prepartion ever offered to the broken down victims of ill ealth. It haunts disease through every avenue nd organ of the system, and expels it thoroughly and permanently.

No one can doubt their superiority after one single trial—they are not only better, but also cheaper can any other Pills, for it takes a less number of them to produce a better effect.
